

FREEWAY Steel Mobile Hoists

PRISM MEDICAL UK

Moving, Handling and Bathing Solutions™

STRONG

. DURABLE. VERSATILE.

A range to cater for a variety of hoisting requirements.

The Freeway range of steel mobile hoists is the result of 30 years of experience in developing, manufacturing and supplying hoists, combined with the knowledge gained from working with the professionals and caregivers who use them.

All Freeway steel mobile hoists are designed and manufactured in the UK with one key principle in mind; to make lifting and handling easier and safer for both the client and the caregiver.

The range includes mobile hoists and a stand aid in order to provide a variety of solutions to hoisting requirements, even for those with the tightest budgetary constraints.

The compact, ergonomic design of the hoists make them perfect for use in community or nursing environments.

FREECOTE

All Freeway steel mobile hoists are of a durable construction which is easy to clean. The protective coating of the hoist includes Freecote, our unique antimicrobial and antibacterial coating.

FREEWAY E-Series Mobile Hoists

The Freeway E-Series Steel Mobile Hoists are exclusively designed and manufactured in the UK to provide a highly economical solution to hoisting requirements.

The E-Series is perfect for those who are in need of a general purpose mobile hoist or for those working within tight budgetary constraints. It hosts a number of features including manual leg opening and has the ability to lift clients from the floor.

There are two variations of the Freeway E-Series - the E-160 and the E-180 which each equate to the maximum lifting capacity (in kg) of the hoist.

The compact, ergonomic design makes the Freeway E-Series perfect for use in community or nursing environments.

Key Features of the Freeway E-Series

Manual leg opening

Allows the hoist to be positioned correctly for a stable and safer lift without restricting access around chairs and beds.

Ergonomically designed handset

Enhances ease of operation and can be conveniently placed on any part of the hoist when not in use.

- Heavy duty castors. 75mm front, 100mm rear (braked)
- Freeway carry bar with 360° turn capability
- On board charging
- Emergency stop button & manual emergency lowering
- Rear foot bar to enhance manoeuvrability
- Ergonomically profiled push handles

FREEWAY S-Series Mobile Hoists

The Freeway S-Series Steel Mobile Hoists are exclusively designed and manufactured in the UK to provide a high quality solution to hoisting requirements.

The S-Series is perfect for those looking for a high quality hoist with added features including powered leg opening and Actu-log hoist usage display. It's superior lifting range enables clients to be lifted safely from the floor.

There are two variations of the Freeway S-Series - the S-160 and the S-180 which each equate to the maximum lifting capacity (in kg) of the hoist.

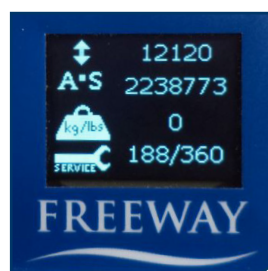

The compact, ergonomic design makes the Freeway S-Series perfect for use in community or nursing environments.

Key Features of the Freeway S-Series

Powered leg opening

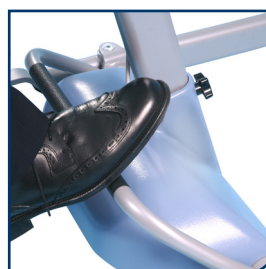

Allows the hoist to be positioned correctly for a stable and safer lift without restricting access around chairs and beds.

Inbuilt counter

Included within the control box to record and display the hoists usage.

- Heavy duty castors. 100mm front, 100mm rear (braked)
- Freeway carry bar with 360° turn capability
- On board charging
- Emergency stop button & manual emergency lowering
- Rear foot bar to enhance manoeuvrability
- Ergonomically profiled push handles

FREEWAY M-Series Mobile Hoists

The Freeway M-Series Steel Mobile Hoists have been specifically designed alongside clients and carers to provide the highest quality solution to lifting and handling requirements.

The M-Series is perfect for those looking for the a feature rich hoist with optional extras available such as a quick release carry bar, weigh scales and off board charging.

There are two variations of the Freeway M-Series - the M-150 and the M-175 which each equate to the maximum lifting capacity (in kg) of the hoist.

Its compact, ergonomic design makes it perfect for use in community or nursing environments.

Key Features of the Freeway M-Series

Powered leg opening

Allows the hoist to be positioned correctly for a stable and safer lift without restricting access around chairs and beds.

Inbuilt counter

Included within the control box to record and display the hoists usage.

- Heavy duty castors. 100mm front, 100mm rear (braked)
- Freeway carry bar with 360° turn capability

FREEWAY SA-160 Stand Aid

The Freeway SA-160 is a sit to stand hoist which delivers a smooth, safe transfer for both the client and the caregiver.

Compact and easy to manoeuvre, this hoist is uniquely designed to provide three functions; as a transfer hoist, as a sit to stand hoist or as an aid to rehabilitation by assisted standing.

The SA-160 benefits from a safe working load of 160kg and is suitable for community or nursing environments.

Key Features of the Freeway SA-160

Removable two position footplate

Allows for gait training and ease of cleaning.

Multi-directional knee pad

Is fully padded and allows for individual adjustment to provide full support.

- Powered leg opening
- Heavy duty castors. 100mm front, 100mm rear (braked)
- Inbuilt counter to record and display the stand aid usage
- On board charging
- Emergency stop button & manual emergency lowering
- Rear foot bar to enhance manoeuvrability
- Ergonomically profiled push handles
