

OPERA® IMPULSE HYBRID MATTRESS

Emergency Evacuation Guide

1 | Detach the user safety straps from each side of the mattress.

2 | Pass the straps over the user and velcro together.

3 | Release the pull strap at the foot end of the mattress.

4 | If connected to the pump, disconnect and connect the two air hose couplers together to retain air in the mattress.

5 | Pull the mattress with the user off the bed.
